Songkran Festival

On 9th April 2010, the International College, organised Thai cultures and traditions due to the Songkran Festival. Both academic and administrative staff participated in such a meaningful event for all Thai people.

Visit to Chiangmai University

Academic and administrative staff of the International College, KMITL, took a visit to the Faculty of Engineering, Chiangmai University on order to exchange experiences and backgrounds in the international study management. The International College was very honoured for the kindness and the hospitality of the dean and academic staff of the Faculty of Engineering, Chiangmai University.

Academic collaboration with TÜV Rhienland Hong Kong and Hong Kong Polytechnic University

From 27th May to 31st May 2010, delegations from the International College KMITL were travelling to Hong Kong in order to initiate the academic collaboration with two prominent institutes. The first one is the Hong Kong branch of TÜV Rhienland, a private German organization. The other is Hong Kong Polytechnic University. The possible activities in the near future will be internships for both undergraduate and postgraduate students of the International College at TÜV Rhienland, and exchanging academic staff between KMITL and Hong Kong Polytechnic University.

Orientation for new students of International College

The new batch of undergraduate and postgraduate students participated in the orientation of the International College on 3rd June 2010. The orientation is organised every year to provide the important information for the students of the International College.

Other news

- The academic collaboration between International College, KMITL and TU Freiberg has been extended via a new MOU agreement. The new collaboration umbrella will include software engineering undergraduate programme and IMRE postgraduate double-degree programme. Students of the International college will benefit in academic exchanges which allow qualified undergraduate students to take an internship in a form of a technical projects at TU Freiberg, and IMRE students to study at TU Freiberg for the double-degree programme.

- The international College would like to welcome our two new lecturers

Dr. Natthapong Jungteerapanich Ph.D. (Informatics), Edinburgh University, UK

Dr. Ukrit Watchareeruetai Ph.D., (Information Science), Nagoya University, Japan
