International College student has won a scholarship from ASEAN University Network

Congratulations! Kamonnat Sirinalinrat, 3rd year student under the software engineering programme, has won a scholarship from ASEAN University Network to study at Daejeon University, South Korea, for one year. She is the only one student from Thailand who has been selected under the Information and Communication Technology (ICT) scheme.

A cultural event for International College students

International College promotes Thai culture and heritages, especially the conservation of Buddhism, by organizing a trip to Temple of Sothorn Wararam Worrawiharn. The trip was for Thai and foreign students of the International College. Temple of Sothorn Wararam Worrawiharn is located on Chachengsao province, and is regarded as one of the most important and sacred places among Buddhists in Thailand.

International symposium on “Renewable Energies – Chances and Challenges for SMEs”

International College in collaboration with DAAD, GIZ, University of Leipzig, TU Dresden and TU Freiberg, organized a successful international forum on “Renewable Energies – Chances and Challenges for SMEs” at Fortune Mercure Hotel. The President of KMITL addressed a welcome speech for the symposium following by presentations from invited honourable guests. This is a vital step for the progress in internationalization of KMITL. There were around 50 participants from government agencies, universities, industrial and business sectors.

Other News

- International College would like to welcome three of our new academic staff as follows:
